Technical Business Analyst specializing in industrial digital transformation, data standardization, and workflow automation. Experienced in leading end-to-end digitalization projects in manufacturing environments using Microsoft Power Platform ecosystem. Skilled in translating operational problems into scalable digital solutions that improve efficiency, data visibility, and decision-making.

KEY DIGITAL TRANSFORMATION PROJECTS

Mooney Monitoring Digitalization

Technical – PT. Bridgestone Tire Indonesia

- Standardized fragmented Mooney viscosity datasets into centralized and structured data architecture
- Designed automated Power BI dashboards used for daily operational monitoring
- Developed Power Automate alert workflows for monthly review tracking
- Integrated Excel, Power Query, SharePoint, and Power BI into a unified data pipeline
- Delivered weekly Power BI training sessions to operational PICs

Shipment Tracking Automation

Raw Material Purchasing – PT. Bridgestone Tire Indonesia

- Designed automated shipment tracking system using Microsoft Power Platform
- Reduced manual processing time by over 75%

PROFESSIONAL EXPERIENCES

PT. Bridgestone Tire Indonesia, Karawang

Nov 2025 – Present

Technical Apprentice

- Working on industrial digitalization initiatives focused on operational data automation and analytics in manufacturing environments.

PT. Bridgestone Tire Indonesia, Karawang

Sep 2024 – Dec 2024

Raw Material Purchasing Intern

- Led shipment tracking digitalization project and standardized operational datasets

Dinas Kelautan dan Perikanan, Banten

Mar 2024 – Mei 2024

Administrative & Web-Dev Intern

- Developed PHP-SQL web system to improve data input workflow and database accuracy

PT. Sucofindo, Jakarta

Feb 2023 – May 2023

Consulting & Web-Dev Project

- Developed web-based data collection system and led small consulting team

TECHNICAL SKILLS

Data & Analytics: **Power BI, Excel (Advanced), Power Query**

Automation: **Power Automate**

Platforms: **SharePoint**

Programming: **SQL, Python (basic), PHP**

Concepts: **Data standardization, workflow automation, dashboard development**

EDUCATION

Universitas Pendidikan Indonesia, Indonesia

2021 – 2025

Bachelor of Science, Marine Information System

GPA 3.81 of 4.00

Honors: Cumlaude

SELECTED PROJECTS

DL Classification Model (CNN Xception) - Serang, Banten

Dec 2023 - Jan 2024

- Developed predictive classification model with 84% validation accuracy

WebGIS Platform Development - Serang, Banten

Sep 2022 - Dec 2022

- Built collaborative WebGIS application and secured intellectual property certification

CERTIFICATIONS

Certiport's IC3 Digital Literacy

Oct 2023

IC3 GS6 Level 1

Python, SQL, Data Science by Dicoding

Dec 2023

Basic

LANGUAGES

Bahasa Indonesia (Native),
English (Professional Working Proficiency).
